Accessory information

Supplied accessories

No.	Accessory items	Quantity	
		KX-TG1855	KX-TG1857
①	AC adaptor for base unit (Part No. PQLV207AL)	1	1
②	Telephone line cord ^{*1}	1	1
③	Rechargeable batteries AAA (R03) size (Part No. HHR-55AAAB)	2	4
④	Handset cover ^{*2}	1	2
⑤	Charger (Part No. PQLV30055Z)	—	1
⑥	AC adaptor for charger (Part No. PQLV209AL)	—	1

*1 The telephone line cord comes connected with the telephone plug.

*2 The handset cover comes attached to the handset.

Additional/replacement accessories

Please contact your nearest Panasonic dealer for sales information.

No.	Model No.	Description
①	HHR-4EPT/2B ^{*1}	2 rechargeable nickel metal hydride (Ni-MH) batteries, AAA (R03) size
②	KX-TGA185AZ	Additional Digital Cordless Handset
③	KX-TCA727EX	Wall-Mounting Adaptor
④	KX-TCA718EX	Belt Clip
⑤	KX-A272AL	DECT repeater

*1 Replacement batteries may have a different capacity from that of the supplied batteries.

Important information

General

- Use only the AC adaptor supplied with this product, noted on page 4.
- Do not connect the AC adaptor to any AC outlet other than a standard 220–240 V AC outlet.
- This product is unable to make calls when:
 - the portable handset battery(ies) need recharging or have failed.
 - there is a power failure.
 - the key lock feature is turned on.
- Do not open the base unit, charger, or handset other than to replace the battery(ies).
- This product should not be used near emergency/intensive care medical equipment and should not be used by people with pacemakers.
- Care should be taken that objects do not fall onto, and liquids are not spilled into, the product. Do not subject this product to excessive smoke, dust, mechanical vibration or shock.

Environment

- Do not use this product near water.
- This product should be kept away from heat sources such as radiators, cookers, etc. It should also not be placed in rooms where the temperature is less than 5 °C or greater than 40 °C.
- It is advised not to use the equipment at a refuelling point. Users are reminded to observe restrictions on the use of radio equipment in fuel depots, chemical plants or where blasting operations are in progress.

Warning:

- To prevent the risk of electrical shock, do not expose this product to rain or any other type of moisture.
- Unplug this product from power outlets if it emits smoke, an abnormal smell, or makes unusual noise. These conditions can cause fire or electric shock. Confirm that smoke has stopped emitting and contact an authorised service centre.
- Do not spill liquids (detergents, cleansers, etc.) onto the telephone line cord plug, or allow it to become wet at all. This may cause a fire. If the telephone line cord plug becomes wet, immediately pull it from the telephone wall jack, and do not use.
- Do not place or use this product near automatically controlled devices such as automatic doors and fire alarms. Radio waves emitted from this product may cause such devices to malfunction resulting in an accident.
- Regularly remove any dust, etc. from the AC adaptor/power plug by pulling it from the power outlet, then wiping with a dry cloth. Accumulated dust may cause an insulation defect from moisture, etc. resulting in a fire.
- Do not damage the power cord/plug. This may cause a short circuit, electric shock, and/or fire.
- Do not touch the plug with wet hands.
- The AC adaptor is used as the main disconnect device. Ensure that the AC outlet is installed near the product and is easily accessible.

Battery caution

- We recommend using the battery(ies) noted on page 4. **Use only rechargeable battery(ies).**
- Do not mix old and new batteries.

Preparation

- Do not dispose of the battery(ies) in a fire, as they may explode. Check with local waste management codes for special disposal instructions.
 - Do not open or mutilate the battery(ies). Released electrolyte from the battery(ies) is corrosive and may cause burns or injury to the eyes or skin. The electrolyte may be toxic if swallowed.
 - Exercise care when handling the battery(ies). Do not allow conductive materials such as rings, bracelets or keys to touch the battery(ies), otherwise a short circuit may cause the battery(ies) and/or the conductive material to overheat and cause burns.
 - Charge the battery(ies) provided with or identified for use with this product only in accordance with the instructions and limitations specified in this manual.
 - Only use a compatible base unit (or charger) to charge the battery(ies). Do not tamper with the base unit (or charger). Failure to follow these instructions may cause the battery(ies) to swell or explode.
- Unplug the telephone line cord from the phone socket.
 - Unplug the AC adaptor from the AC power outlet.
 - No "000" or other calls can be made from this device during a mains power failure.
 - The earpiece on the handset is magnetised and may retain small metallic objects.
 - This equipment has been tested and found to comply with AS/NZS CISPR22: 2004 limits for electromagnetic interference. Any modifications to any part of the system or to any peripherals may void the EMC compliance of the system or the peripherals.

Notice

- Please ensure that a separate telephone, not dependent on local power, is available for emergency use.
- This equipment will be inoperable when mains power fails.
- When a failure occurs which results in the internal parts becoming accessible, disconnect the power supply cord immediately and return this unit to an authorised service centre.
- To minimise the possibility of lightning damage, when you know that a thunderstorm is coming, we recommend that you:

Notice for product disposal, transfer, or return

- This product can store your private/confidential information. To protect your privacy/confidentiality, we recommend that you erase the information such as phonebook or caller list entries from the memory before you dispose, transfer or return the product.

Information on Disposal in other Countries outside the European Union

This symbol is only valid in the European Union. If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.

Instructions to customer

Installation

Attached to this telephone is an approval label. This label is evidence that it is a "Permitted Attachment" which has been authorised to be connected to your telephone service.

Conditions relating to connection and operation of this Permitted Attachment are contained in Telecommunications General By-Law 220 (5).

You are authorised to install this Permitted Attachment yourself by plugging it into the line socket of any regular telephone. You may connect it in place of your existing telephone or to any spare telephone socket installed in your premises.

To disconnect your existing telephone you must first remove its plug from the line socket. You can then insert the plug of your Permitted Attachment into the socket and use your equipment.

If the plug of your existing telephone cannot be readily removed, you will have to remove the screw securing it. To do this proceed as follows:

- 1** Loosen screw "A" sufficiently to remove the socket cover. (See Fig. 1.)
- 2** Remove screw "B" and withdraw the plug. (See Fig. 2.)
- 3** Replace screw "B". (See Fig. 3.) Ensure that it screws completely into the socket recess. (If the screw is too long, increase the hole depth or replace the screw with one 5 mm shorter.)
- 4** Replace socket cover and tighten screw "A". (See Fig. 4.)

Fig. 1

TELEPHONE CORD
(Connect to the PLUG
as shown in Fig. 1.)

Fig. 2

Fig. 3

Fig. 4

Preparation

If you are satisfied with the operation of your telephone service after plugging in your Permitted Attachment, your installation is completed.

You will be unable to connect this Permitted Attachment if your telephone service consists only of a wall phone or an old style telephone which is not connected by means of a modern plug and socket. In such cases a new socket will need to be installed.

Should the Permitted Attachment not operate when plugged into a socket, it is either faulty or unsuitable for operation with your telephone service. It should be returned to the store where purchased or to an Authorised Service Centre.

Service difficulties

If at any time a fault occurs on your telephone service carry out the following checks before you call for service:

- Disconnect the Permitted Attachment and try using the service with the normal telephone.
- If the telephone service then operates satisfactorily, the fault is in your Permitted Attachment. Leave the Permitted Attachment disconnected and report the fault to its supplier or agent to arrange for repair.
- If when using the telephone the service is still faulty, report the fault to "Service Difficulties and Faults" for attention.

You are required to keep this Permitted Attachment in good working order while it is connected to your telephone service. Its construction or internal circuit must not be modified in any way without permission.

Warning:

This cordless telephone system does not incorporate provision for secrecy of conversations. Appropriately tuned radio equipment and other cordless telephone systems in close proximity may be used by a third party to monitor and possibly interrupt conversations in progress when this system is on radio operation.

[IN USE]	<ul style="list-style-type: none"> Line is being used by another handset for calling, registration, etc. Answering system is being used by another handset or the base unit.

Connections

Connect the telephone line cord until it clicks into the base unit and telephone line jack (1). Connect the AC adaptor cord (2) by pressing the plug firmly (3).

Base unit

Important:

- If you use a telephone line cord which is not supplied, the unit may not work properly.

Charger (KX-TG1857)**Note:**

- Never install telephone wiring during a lightning storm.
- The AC adaptor must remain connected at all times. (It is normal for the adaptor to feel warm during use.)
- The AC adaptor should be connected to a vertically oriented or floor-mounted AC outlet. Do not connect the AC adaptor to a ceiling-mounted AC outlet, as the weight of the adaptor may cause it to become disconnected.
- The unit will not work during a power failure. We recommend connecting a standard telephone to the same telephone line or to the same telephone socket using a telephone double adaptor.
- The unit is not designed to be used with rotary (pulse dialling) services.

If you subscribe to an ADSL service

- Please attach a noise filter (contact your ADSL provider) to the telephone line between the base unit and the telephone line socket in the event of the following:

- Noise is heard during conversations.
- Caller ID features (page 23) do not function properly.

**Location**

- For maximum distance and noise-free operation, place your base unit:
 - away from electrical appliances such as TVs, radios, personal computers, or other phones.
 - in a convenient, high, and central location.

Battery installation and replacement**Important:**

- Use only the supplied rechargeable batteries noted on page 4, 5.
- USE ONLY rechargeable Ni-MH batteries AAA (R03) size.
- Do NOT use Alkaline/Manganese/Ni-Cd batteries.
- Ensure correct polarities (+, -) when installing the batteries.

Preparation

- Wipe the battery ends (+, -) with a dry cloth.
- When installing the batteries, avoid touching the battery ends (+, -) or the unit contacts.
- When replacing batteries, we recommend using the Panasonic rechargeable batteries noted on page 4, 5.

- 1 Press the notch on the handset cover firmly and slide it in the direction of the arrow.

- 2 Insert the batteries negative (-) end first. Close the handset cover.

Rechargeable Ni-MH ONLY

Note:

- When replacing batteries, remove the old batteries.

Battery charge

Place the handset on the base unit or charger for about 7 hours before initial use.

When charging, "Charging" will be displayed.

When the batteries are fully charged, "Charge Completed" will be displayed.

Base unit

Charger*¹

*1 KX-TG1857

Note:

- It is normal for the handset to feel warm during charging.
- If you want to use the unit immediately, charge the batteries for at least 15 minutes.
- Clean the charge contacts of the handset, base unit, and charger with a soft, dry cloth once a month. Clean more often if the unit is subject to the exposure of grease, dust, or high humidity.

Battery level

Battery icon	Battery level
	High
	Medium
	Low <ul style="list-style-type: none"> When flashing: Needs to be charged.

Panasonic Ni-MH battery performance (supplied batteries)

Operation	Operating time
In continuous use	Approx. 17 hours max.
In continuous standby mode	Approx. 180 hours max.

Note:

- It is normal for batteries not to reach full capacity at the initial charge. Maximum battery performance is reached after a few complete cycles of charge/discharge (use).
- Actual battery performance depends on a combination of how often the handset is in use and how often it is not in use (standby).
- Even after the handset is fully charged, the handset can be left on the base unit or charger without any ill effect on the batteries.
- The battery level may not be displayed correctly after you replace the batteries. In this case, place the handset on the base unit or charger and let it charge for at least 7 hours.

Turning the power on/off**Power on**

Press **[]** for about 1 second.

Power off

Press **[]** for about 2 seconds.

Setting up the unit before use**Display language**

- []** → **[/OK]**
- Press **[]** or **[]** to select “**Handset Setup**”. → **[]**
- Press **[]** or **[]** to select “**Display Setup**”. → **[]**
- Press **[]** or **[]** to select “**Select Language**”. → **[]**
- Press **[]** or **[]** to select the desired language. → **[]** → **[]**

Note:

- If you select a language you cannot read: **[]** → **[/OK]** → **[]** 3 times → **[]** → **[]** 2 times → **[]** 2 times → **[]/[]**: Select the desired language. → **[]** → **[]**

Date and time

- 1 /OK
- 2 Press  or  to select "Handset Setup". → 
- 3 Press  or  to select "Time Settings". → 
- 4 Press  or  to select "Set Date & Time". → 
- 5 Enter the current date, month, and year.
Example: 17 May, 2007

- 6 Enter the current hour and minute.
Example: 3:30 PM
 → Press  until "03:30 PM" is displayed.
- 7 /OK → 

Note:

- To correct a digit, press  or  to move the cursor, then make the correction.
- The date and time may be incorrect after a power failure. In this case, set the date and time again.

Making calls

- 1 Lift the handset and dial the phone number.
 - To correct a digit, press **[C/⊗]**.
- 2 **[↶]**
- 3 When finished talking, press **[⏏]** or place the handset on the base unit or charger.

Speakerphone

- 1 During a conversation, press **[📞]** to turn on the speakerphone.
 - Speak alternately with the caller.
- 2 When finished talking, press **[⏏]**.

Note:

- For best performance, use the speakerphone in a quiet environment.
- To switch back to the receiver, press **[↶]**.

Adjusting the receiver or speaker volume

Press **[▲]** or **[▼]** while on a call.

Making a call using the redial list

The last 10 phone numbers dialled are stored in the redial list (each 24 digits max.).

- 1 **[⏏]**
- 2 **[▲]/[▼]**: Select the desired number.
- 3 **[↶]**

Erasing numbers in the redial list

- 1 **[⏏]**
- 2 **[▲]/[▼]**: Select the desired number.
→ **[▶]**
- 3 **[▲]/[▼]**: "Erase" → **[▶]**

4 **[▲]/[▼]**: "Yes" → **[▶]** → **[⏏]**

Pause (for PBX/long distance service users)

A pause is sometimes required when making calls using a PBX or long distance service.

Example: If you have to dial **[0]** before dialling outside numbers manually, you will probably need to pause after dialling **[0]** until you hear a dial tone.

- 1 **[0]** → **[⏏]**
- 2 Dial the phone number. → **[↶]**

Note:

- A 3 second pause is inserted each time **[⏏]** is pressed. Repeat as needed to create longer pauses.

Answering calls

- 1 Lift the handset and press **[↶]** or **[📞]** when the unit rings.
 - You can also answer the call by pressing any dial key from **[0]** to **[9]**, **[*]**, or **[#]**. (Any key answer feature)
- 2 When finished talking, press **[⏏]** or place the handset on the base unit or charger.

Auto talk feature

You can answer calls simply by lifting the handset off the base unit or charger. You do not need to press **[↶]**. To turn this feature on, see page 19.

Adjusting the handset ringer volume when receiving a call

Press **[▲]** or **[▼]**.

Handset locator

Using this feature, you can locate the handset if it has been misplaced.

- 1 Press **[📞]** on the base unit.
- 2 To stop paging, press **[📞]** on the base unit or press **[🔇]** on the handset.

Useful features during a call

Mute

While mute is turned on, you will be able to hear the other party, but the other party will not be able to hear you. To mute your voice, press **[C/🔇]**.

- To return to the conversation, press **[C/🔇]** again.

R button (to use the recall function)

Pressing **[R]** allows you to use special features of your host PBX such as transferring an extension call, or accessing optional telephone services.

Note:

- To change the recall time, see page 21.

For Call Waiting service users

To use Call Waiting, you must subscribe to the Call Waiting service of your service provider/telephone company. This feature allows you to receive calls while you are already talking on the phone. If you receive a call while on the phone, you will hear a Call Waiting tone. Please contact your service provider/telephone company for details

and availability of this service in your area. Press **[R]** to answer the 2nd call.

- To switch between calls, press **[R]**.

Key lock

The handset can be locked so that no calls or settings can be made. Incoming calls can be answered, but all other functions are disabled while key lock is on.

To turn key lock on, press **[🔒/OK]** for about 3 seconds.

- “**Key Lock**” is displayed.
- To turn key lock off, press **[🔒/OK]** again for about 3 seconds.

Note:

- Calls to emergency numbers cannot be made until key lock is turned off.

Call share

A 2nd handset can join an existing outside call.

To join the conversation, press **[📞]** or **[📞]** when the other handset is on an outside call.

Call privacy

Call privacy allows you to prevent other users from joining your conversations with outside callers. To allow other users to join your conversations, leave this feature off. The default setting is “**off**”.

- 1 Press **[🔒/OK]** during an outside call.
- 2 **[🔒]/[🔒]**: “**on**” or “**off**” → **[▶]**
 - When this feature is turned on, “**[P]**” is displayed.

Note:

- This feature will turn off after you hang up the call.

Handset phonebook

The handset phonebook allows you to make calls without having to dial manually. You can add 50 names and phone numbers.

Adding entries

- 1 → /OK
- 2 /: "New Entry" →
- 3 Enter the party's name (16 characters max.; page 34). → /OK
- 4 Enter the party's phone number (24 digits max.). → /OK
- 5 /: "Save" → → /OK

Note:

- Step 1 variation:
/OK → /: Select "Ph.Book Setup". →

Finding and calling a handset phonebook entry

Scrolling through all entries

- 1
- 2 /: Select the desired entry.
- 3

Searching by first character (index search)

- 1
- 2 Press the dial key (to) which contains the character you are searching for (page 34).
 - Press the same dial key repeatedly to display the first entry corresponding to each letter located on that dial key.

- If there is no entry corresponding to the letter you selected, the next entry will be displayed.
- To change the character entry mode:

→ /: Select the character entry mode. →

- 3 /: Scroll through the phonebook if necessary.
- 4

Editing entries

- 1 Find the desired entry (page 17). → /OK
- 2 /: "Edit" →
- 3 Edit the name if necessary (16 characters max.; page 34). → /OK
- 4 Edit the phone number if necessary (24 digits max.). → /OK
- 5 /: "Save" → → /OK

Erasing entries

Erasing an entry

- 1 Find the desired entry (page 17). → /OK
- 2 /: "Erase" →
- 3 /: "Yes" → → /OK

Erasing all entries

- 1 → /OK
- 2 /: "Erase All" →
- 3 /: "Yes" →
- 4 /: "Yes" → → /OK

Chain dial

This feature allows you to dial phone numbers in the handset phonebook while you are on a call. This feature can be used, for example, to dial a calling card access number or bank account PIN that you have stored in the handset phonebook, without having to dial manually.

- 1** While on a call, press **[□□]**.
- 2** **[▲]/[▼]**: Select the desired entry.
- 3** Press **[▶]** to dial the number.

Handset settings

To customise the handset:

- 1 /OK]
- 2 Press **[▲]** or **[▼]** to select “Handset Setup”. → **[▶]**
- 3 Press **[▲]** or **[▼]** to select the desired item in the handset settings menu. → **[▶]**
- 4 Press **[▲]** or **[▼]** to select the desired item in the sub-menu. → **[▶]**
- 5 Press **[▲]** or **[▼]** to select the desired setting then press **[▶]**.
 - This step may vary depending on the feature being programmed.
 - To exit the operation, press **[✕]**.

Note:

- The current item or setting is indicated by **▶** on the display.

Menu	Sub-menu	Details (default setting)
Time Settings	Set Date & Time	page 14
	Alarm	page 20
Ringer Setup	Ringer Volume	For handset (<i>Maximum</i>)* ¹
	Ext. Ringtone	For outside calls (“Ringtone 1”)* ^{2, *3}
Display Setup	Select Language	(“English”): page 13
	Contrast	(Level 3)
Registration	Register H.set	page 31
Other Options	Keytones	(“On”)
	Auto Talk	(“Off”): page 15

*1 When the ringer volume is turned off, “Ring Off” is displayed and the handset does not ring for outside calls.

However even when the ringer volume is turned off, the handset rings:

- at the minimum level for alarm
- at the minimum level for intercom calls
- at the maximum level for paging

*2 If you select one of the melody ringtones, the ringtone will continue to sound for several seconds if the caller hangs up before you answer. You may hear a dial tone or no one on the line when you answer a call.

*3 The preset melodies in this product are used with permission of © 2006 Copyrights Vision Inc.

Special instructions for time settings

Alarm

An alarm will sound for 3 minutes at the set time once or daily. Set the date and time beforehand (page 14).

- 1 **[/OK]**
- 2 **[]/[: “Handset Setup” → **[]****
- 3 **[]/[: “Time Settings” → **[]****
- 4 **[]/[: “Alarm” → **[]** 2 times**
- 5 **[]/[: Select an alarm mode. → **[]****

“Off”

Turns alarm off. Press **[]** again, then press **[ ]** to finish.

“Once”

The alarm sounds once at the set time. Enter the desired date and month.

“Daily”

An alarm sounds daily at the set time.

- 6 Enter the desired hour and minute.
→ **[/OK]**
- 7 **[]/[: Select the desired ringtone.
→ **[]****
- 8 **[]/[: “Save” → **[]** → **[ ]****

Note:

- To stop the alarm, press any dial key.
- When in talk or intercom mode, the alarm will not sound until the call has ended.
- If you select “Once”, the setting will change to “Off” after the alarm sounds.

Base unit settings

To customise the base unit using the handset:

- 1 **[/OK]**
- 2 Press **[▲]** or **[▼]** to select “**Base Unit Setup**”. → **[▶]**
- 3 Press **[▲]** or **[▼]** to select the desired item in the base unit settings menu. → **[▶]**
- 4 Press **[▲]** or **[▼]** to select the desired item in the sub-menu. → **[▶]**
- 5 Press **[▲]** or **[▼]** to select the desired setting then press **[▶]**.
 - This step may vary depending on the feature being programmed.
 - To exit the operation, press **[✕⓪]**.

Note:

- The current item or setting is indicated by **▶** on the display.

Menu	Sub-menu	Details (default setting)
Ringer Volume	—	For base unit (<i>Medium</i>)
Call Options	Recall/Flash	Recall time (“100 msec.”) ^{*1}
	Area Code	page 22
Other Options	Base Unit PIN	Change base unit PIN (“0000”). ^{*2} <ul style="list-style-type: none"> – Enter the current 4-digit base unit PIN.^{*3} – Enter the new 4-digit base unit PIN. → [▶] → [✕⓪]
	Repeater Mode	(“Off”): page 32

^{*1} Change the recall time, if necessary, depending on the requirements of your service provider/telephone company or PBX.

The recall time depends on your telephone exchange or host PBX. Consult your PBX supplier if necessary.

You can access your service provider/telephone company “Call Waiting” service by having the recall time set at 100 ms, and then follow your service provider/telephone company “Call Waiting” instructions to operate this service.

^{*2} If you change the PIN, please make note of your new PIN. The unit will not reveal the PIN to you.

^{*3} If you forget your PIN, consult your nearest Panasonic service centre.

Special instructions for call options

Selecting area codes to be deleted automatically

In some situations, phone numbers stored automatically in the Caller ID list (page 23) will include area codes. If you do not want to dial the area codes when making calls from the Caller ID list, you can store the area codes which you want the unit to delete automatically.

Example: You have stored the area code “123”. If you make a call from the Caller ID list to the phone number “123-456-7890”, the unit dials “456-7890”.

- 1 **[/OK]**
- 2 **[]/[]: “Base Unit Setup” → []**
- 3 **[]/[]: “Call Options” → []**
- 4 **[]/[]: “Area Code” → []**
- 5 **[]/[]: Enter an area code (5 digits max.). → [/OK] → [⓪]**

Using Caller ID service

Important:

- This unit is Caller ID compatible. To use Caller ID features (such as displaying caller phone numbers), you must subscribe to Caller ID service. Consult your service provider/telephone company for details.

Caller ID features

When an outside call is received, the caller's phone number will be displayed.

- Phone numbers of the last 50 callers will be logged in the caller list.
- While listening to a message recorded by the answering system using the handset, you can call back the caller without having to dial the phone number (page 27).
- When caller information is received and it matches a phone number stored in the unit's phonebook, the stored name will be displayed and logged in the caller list.
- If the unit is connected to a PBX system, you may not receive the caller information.
- When the caller dialed from an area which does not provide Caller ID service, "Out of Area" will be displayed.
- When the caller requested not to send caller information, either no information or "Private Caller" will be displayed.

Missed calls

If a call is not answered, the unit treats the call as a missed call. The number of missed calls is shown on the display. This lets you know if you should view the

caller list to see who called while you were out.

Call waiting and Caller ID compatible

If you subscribe to Caller ID service, your handset displays the 2nd caller's information while talking. After you hear a call waiting tone, the caller's phone number will be displayed.

You can answer the 2nd call, keeping the 1st call on hold. Follow your service provider/telephone company instructions using **[R]**. (Recall function)

- If the phone number is stored in the phonebook with its name, the caller's name will also be displayed.
- Please contact your service provider/telephone company for details and availability in your area.

For Caller ID type II users

When you receive a 2nd call during a conversation, you will hear a signal tone following the call waiting tone and the **conversation will be interrupted or muted for a short period of time**. This is not the fault of the product as these events are normal.

- The tones are generated by the service provider/telephone company.

Caller list

Viewing the caller list and calling back

- 1 **[☐]/OK**
- 2 **[▲]/[▼]**: "Caller List" → **[▶]**
- 3 Press **[▼]** to search from the most recent call, or press **[▲]** to search from the oldest call.

Caller ID Service

- If the item has already been viewed or answered, “✓” is displayed, even if it was viewed or answered using another handset.

4 [↶]

Note:

- If you do not want to dial the area codes when making calls from the Caller ID list, you can store the area codes which you want the unit to delete automatically (page 22).

Editing a caller's phone number before calling back

- 1 [≡/OK]
- 2 [▲]/[▼]: “Caller List” → [▶]
- 3 [▲]/[▼]: Select the desired entry. → [≡/OK]
- 4 [▲]/[▼]: “Edit and Call” → [▶]
- 5 Edit the number.
 - Press dial key ([0] to [9]) to add, [C/✕] to delete.
- 6 [↶]

Erasing caller information

- 1 [≡/OK]
- 2 [▲]/[▼]: “Caller List” → [▶]
- 3 [▲]/[▼]: Select the desired entry. → [≡/OK]
- 4 [▲]/[▼]: “Erase” or “Erase All” → [▶]
- 5 [▲]/[▼]: “Yes” → [▶] → [✕⓪]

Storing caller information into the handset phonebook

- 1 [≡/OK]
- 2 [▲]/[▼]: “Caller List” → [▶]

- 3 [▲]/[▼]: Select the desired entry. → [≡/OK]
- 4 [▲]/[▼]: “Add Phonebook” → [▶]
- 5 Continue from step 3, “Adding entries”, page 17.

Voice mail service

Voice mail is an automatic answering service offered by your service provider/telephone company. If you subscribe to this service, your service provider/telephone company's voice mail system will answer calls for you when you are unavailable to answer the phone or when your line is busy. Messages are recorded by your service provider/telephone company, not your telephone. Please consult your service provider/telephone company for details of this service.

Note:

- To use the voice mail service provided by your service provider/telephone company rather than the unit's answering system, turn off the answering system (page 25). For details, see page 29.

Answering system

The answering system can answer and record calls for you when you are unavailable to answer the phone.

Important:

- Only 1 person can access the answering system (listen to messages, record a greeting message, etc.) at a time.
- When callers leave messages, the unit records the date and time of each message. Make sure the date and time have been set (page 14).

Memory capacity

The total recording capacity (including your greeting message and caller messages) is about 20 minutes. A maximum of 64 messages can be recorded.

Note:

- If message memory becomes full:
 - “Answer Sys. Full” is shown on the handset display
 - [▶] on the base unit flashes rapidly

Turning the answering system on/off

Using the base unit

Press [📞] to turn on/off the answering system.

- When the answering system is turned on, the answer on indicator lights up.

Using the handset

- 1 [📞/OK]

- 2 [▲]/[▼]: “Answer System” → [▶]
- 3 [▲]/[▼]: “Answer On” or “Answer Off” → [▶] → [🔌📞]

Note:

- When the answering system is turned on, 📞 is displayed.

Greeting message

When the unit answers a call, callers are greeted by a greeting message.

Recording a greeting message

You can record your own greeting message (2 minutes and 30 seconds max.).

- 1 [📞/OK]
- 2 [▲]/[▼]: “Answer System” → [▶]
- 3 [▲]/[▼]: “Record Greeting” → [▶]
 - Hold the handset about 20 cm away and speak clearly into the microphone.
- 4 Press [📞/OK] to stop recording.
- 5 [🔌📞]

Using a pre-recorded greeting message

If you erase or do not record your own greeting message, the unit plays a pre-recorded greeting message for callers and asks them to leave messages. If the message recording time (page 30) is set to “Greeting Only”, caller messages will not be recorded and the unit will play a different pre-recorded greeting message asking callers to call again.

Playing back the greeting message

- 1 [M]/OK
- 2 [A]/[V]: "Answer System" → [▶]
- 3 [A]/[V]: "Play Greeting" → [▶]
- 4 [A]/[V]

Erasing the greeting message

If you erase your own greeting message, the unit will play a pre-recorded greeting message for callers.

- 1 [M]/OK
- 2 [A]/[V]: "Answer System" → [▶]
- 3 [A]/[V]: "Erase Message" → [▶]
- 4 [A]/[V]: "Erase Greeting" → [▶]
- 5 [A]/[V]: "Yes" → [▶] → [A]/[V]

Listening to messages

Listening to new/all messages

When you have new messages, [▶] on the base unit flashes.

Note:

- When [▶] on the base unit flashes rapidly, the message memory is full ("Memory capacity", page 25).

Using the base unit

Press [▶].

- If new messages have been recorded, the base unit plays back new messages.

- If there are no new messages, the base unit plays back all messages.

Using the handset

- 1 [M]/OK
- 2 [A]/[V]: "Answer System" → [▶]
- 3 [A]/[V]: "Play New Msg." or "Play All Msg." → [▶]

Operations during playback

■ To adjust the speaker volume:

- for the base unit, press [Λ] or [V]
- for the handset, press [A] or [V]

■ To repeat a message:

- for the base unit, press [◀▶]
- for the handset, press [◀▶]

If pressed within the first 5 seconds of a message, the previous message will be played.

■ To skip a message:

- for the base unit, press [▶▶]
- for the handset, press [▶▶]

■ To stop a message:

- for the base unit, press [■]
- for the handset, press [9]

■ To erase a message:

- for the base unit, press [X]
- for the handset, press [✱][4]

Erasing all messages

Using the base unit

Press [X] 2 times.

Using the handset

- 1 [M]/OK
- 2 [A]/[V]: "Answer System" → [▶]
- 3 [A]/[V]: "Erase Message" → [▶]

- 4 [▲]/[▼]: "Erase All" → [▶]
 5 [▲]/[▼]: "Yes" → [▶] → [⏮] [⏭]

Calling back (Caller ID subscribers only)

If caller information was received for the call, you can call the caller back while listening to a message.

- 1 Press [⏮/OK] during playback.
 2 [▲]/[▼]: "Call Back" → [▶]

Editing the number before calling back

- 1 Press [⏮/OK] during playback.
 2 [▲]/[▼]: "Edit and Call" → [▶]
 3 Edit the number. → [↶]

Direct command operation using the handset

You can operate the answering system by pressing dial keys, rather than navigating through the menus. To use the following commands:

[⏮/OK] →
 [▲]/[▼]: "Answer System" → [▶]

Key	Operation
[1]	Repeat message (during playback) ^{*1}
[2]	Skip message (during playback)
[3]	Enter the "Settings" menu
[4]	Play new messages
[5]	Play all messages
[6]	Play greeting message

Key	Operation
[7][6]	Record greeting message
[8]	Turn answering system on
[9]	Stop (recording, playback)
[0]	Turn answering system off
[*][4]	Erase currently playing message
[*][5]	Erase all messages
[*][6]	Erase greeting message

*1 If pressed within the first 5 seconds of a message, the previous message will be played.

Remote operation

Using a touch-tone phone, you can call your phone number from outside and access the unit to listen to messages or change answering system settings. The unit's voice guidance will prompt you to press certain dial keys to perform different operations.

Important:

- In order to operate the answering system remotely, you must first turn on remote operation by setting a remote access code. This code must be entered each time you operate the answering system remotely.

Turning remote operation on

A 3-digit remote access code must be entered when operating the answering system remotely. This code prevents unauthorised parties from listening to your messages remotely.

Answering System Features

- 1 **[]/OK**
- 2 **[▲]/[▼]**: “Answer System” → **[▶]**
- 3 **[▲]/[▼]**: “Settings” → **[▶]**
- 4 **[▲]/[▼]**: “Remote Code” → **[▶]**
- 5 To turn on remote operation, enter a 3-digit remote access code.
 - To turn off remote operation, press **[*]**.
- 6 **[]/OK** → **[*][0]**

Using the answering system remotely

- 1 Dial your phone number from a touch-tone phone.
- 2 After the greeting message starts, enter your remote access code.
 - The unit will announce the number of new messages.
 - After 3 seconds, voice guidance starts.
- 3 Follow the voice guidance prompts as necessary.

Note:

- You can hang up at any time.

Voice guidance

During remote operation, the unit's voice guidance will prompt you to press **[1]** to perform a specific operation, or press **[2]** to listen to more available operations.

Remote commands

You can press dial keys to access certain answering system functions without waiting for the voice guidance to prompt you.

Key	Operation
[1]	Repeat message (during playback) ^{*1}

Key	Operation
[2]	Skip message (during playback)
[4]	Play new messages
[5]	Play all messages
[6]	Play greeting message
[7]	Record greeting message
[9]	Stop (recording, playback)
[0]	Turn answering system off
[*][4]	Erase currently playing message
[*][5]	Erase all messages
[*][6]	Erase greeting message (during greeting message playback)
[*][#]	End remote operation (or hang up)

^{*1} If pressed within the first 5 seconds of a message, the previous message will be played.

Turning on the answering system remotely

If the answering system is off, you can turn it on remotely.

- 1 Dial your phone number from a touch-tone phone.
- 2 Let the phone ring 15 times.
 - A long beep will be heard.
- 3 Enter your remote access code within 10 seconds after the long beep.
 - The greeting message is played back.
 - You can hang up, or enter your remote access code again and begin remote operation.

Answering system settings

Setting (default setting)	Page
Answering system on/off (Answer On)	25
Remote access code (—)	27
Number of rings (4 Rings)	29
Caller's recording time (3 Minutes)	30
Call screening (On)	30

Number of rings

You can change the number of times the phone rings before the unit answers calls. You can select 2 to 7 rings, or **"Auto"**.

"Auto": The unit answers after 2 rings when new messages have been recorded, and after 5 rings when there are no new messages. If you call your phone from outside to listen to new messages (page 28), you will know that there are no new messages when the phone rings for the 3rd time. You can then hang up without being charged for the call.

- 1 **[/OK]**
- 2 **[]/[]**: **"Answer System"** → **[>]**
- 3 **[]/[]**: **"Settings"** → **[>]**
- 4 **[]/[]**: **"Number of Rings"** → **[>]**
- 5 **[]/[]**: Select the desired setting.
→ **[>]** → **[⓪]**

For Service Provider Voice Mail Subscribers

To receive Voice Mail and use answering system properly, please note the following:

- **"Voice Mail"** is a service provided by your service provider/telephone company. You will need to first subscribe or activate this service through your service provider/telephone company. Consult your service provider/telephone company on how to operate this service and how you will be notified that you have messages on your Voice Mail.

To use this service you will be required to leave your answering machine off on your unit.

This will allow the Voice Mail to receive any messages.

This unit does not have a visual indicator to indicate if there are new messages in your Voice Mail service. Your service provider/telephone company may use a **"Stutter"** dial tone to indicate that you have Voice Mail left.

- To use the unit's answering machine rather than the Voice Mail service provided by your service provider/telephone company, please consult your service provider/telephone company to have it removed or deactivated permanently or temporarily.
- Alternatively you can leave this service connected and change the **"Number of Rings"** to a shorter duration on your unit so your unit's answering machine can pick up the call prior to the Voice Mail provided by your service provider/telephone company.

Note:

- Provider Voice Mail can capture messages that can be missed while the customer is on the Internet.

Caller's recording time

You can change the maximum message recording time allotted to each caller, or set the unit to greet callers but not record messages.

- 1 **[/OK]**
- 2 **[]/[]**
- 3 **[]/[]**
- 4 **[]/[]**
- 5 **[]/[] → [⓪]**

Call screening

While a caller is leaving a message, you can screen the call through the handset speaker.

- 1 **[/OK]**
- 2 **[]/[]**
- 3 **[]/[]**
- 4 **[]/[]**
- 5 **[]/[] → [⓪]**

Operating additional units

Additional handsets

Up to 6 handsets can be registered to the base unit.

Important:

- The additional handset model recommended for use with this unit is noted on page 4. If other model handset is used, certain operations (handset settings, base unit settings, etc.) may not be available.
- Additional handsets will give you the freedom to, for example, have an intercom call with another handset while a third handset is on an outside call.

Registering a handset to the base unit

The supplied handset and base unit are pre-registered. When you purchase an additional handset, refer to the additional handset's installation manual for registration. If for some reason the handset is not registered to the base unit (for example, ∇ flashes even when the handset is near the base unit), register the handset.

- 1 **[\square]/OK]**
- 2 **[Δ]/[∇]: "Handset Setup" \rightarrow [\triangleright]**
- 3 **[Δ]/[∇]: "Registration" \rightarrow [\triangleright]**
- 4 **[Δ]/[∇]: "Register H.set" \rightarrow [\triangleright]**

- 5 Press and hold **[\bullet)]** on the base unit for about 5 seconds, until the registration tone sounds.
 - If all registered handsets start ringing, press **[\bullet)]** to stop, then repeat this step.
 - After pressing **[\bullet)]**, the rest of this procedure must be completed within 90 seconds.
- 6 Wait until "Enter Base PIN" is displayed. \rightarrow Enter the base unit PIN (default: "0000"). \rightarrow **[\square]/OK]**
 - If you forget your PIN, consult your nearest Panasonic service centre.
 - When the handset has been registered successfully, ∇ will stop flashing. If the key tone is turned on (page 19), a confirmation tone will be heard.

Deregistering a handset

A handset can cancel its own registration (or the registration of another handset) that is stored in the base unit. This will allow the base unit to "forget" the handset.

- 1 **[\square]/OK]**
- 2 **[Δ]/[∇]: "Base Unit Setup" \rightarrow [\triangleright]**
- 3 Enter "335".
- 4 **[Δ]/[∇]: "Deregistration" \rightarrow [\triangleright]**
 - The numbers of all handsets registered to the base unit are displayed.
- 5 Select the handset(s) you want to cancel, by pressing the desired handset number. \rightarrow **[\square]/OK]**
 - The selected handset number(s) will flash.

Multi-unit Operation

- To cancel a selected handset number, press the number again. The number will stop flashing.

6 [▲]/[▼]: “Yes” → [▶]

- A long beep will sound as each handset number disappears.
- The handset does not beep when cancelling its own registration.

7 [✕⓪]

Increasing the range of the base unit

You can increase the signal range of the base unit by using a DECT repeater. Please use only the Panasonic DECT repeater noted on page 4. Consult your Panasonic dealer for details.

Important:

- Before registering the repeater to this base unit, you must turn the repeater mode on.
- Do not use more than one repeater at a time.

Setting the repeater mode

1 [≡/OK]

2 [▲]/[▼]: “Base Unit Setup” → [▶]

3 [▲]/[▼]: “Other Options” → [▶]

4 [▲]/[▼]: “Repeater Mode” → [▶]

5 [▲]/[▼]: “On” or “Off” → [▶] → [✕⓪]

Note:

- After turning repeater mode on or off,  will flash on the handset momentarily. This is normal. The handset can be used once  stops flashing.

Intercom between handsets

Intercom calls can be made between handsets.

Example: When handset 1 calls handset 2

1 Handset 1:

[INT] → Press [2] (desired handset number).

2 Handset 2:

[↶]

3 When finished talking, press

[✕⓪].

Transferring calls between handsets

Outside calls can be transferred between 2 people.

Example: When handset 1 transfers a call to handset 2

1 Handset 1:

During an outside call, press [INT].
→ Press [2] (desired handset number).

- The outside call will be put on hold.
- If there is no answer, press [INT] to return to the outside call.

2 Handset 2:

Press [↶] to answer the page.

- Handset 2 can talk with handset 1.

3 Handset 1:

To complete the call transfer, press [✕⓪].

Transferring a call without speaking to the other handset user

- 1 During an outside call, press [INT].
→ Press the desired handset number.
 -  flashes to indicate the outside call is on hold.
- 2 []
 - The outside call rings at the other handset.

Note:

- If the other handset user does not answer the call within 1 minute, the call will ring at your handset again.

Conference calls

2 people can have a conference call with an outside party. The following 2 methods are available:

- Another person presses [] or [] while one person is talking with an outside party (“Call share”, page 16).
- One person pages another person during an outside call as follows.

Example: When handset 1 pages a call to handset 2

- 1 **Handset 1:**
During an outside call, press [INT].
→ Press [2] (desired handset number).
 - The outside call will be put on hold.
 - If there is no answer, press [INT] to return to the outside call.
- 2 **Handset 2:**
Press [] to answer the page.
 - Handset 2 can talk with handset 1.
- 3 **Handset 1:**

To establish a conference call, press [3].

Copying phonebook entries

You can copy handset phonebook entries to the handset phonebook of another compatible Panasonic handset.

Copying one entry

- 1 Find the desired handset phonebook entry (page 17). → [/OK]
- 2 [▲]/[▼]: “Copy” → [▶]
- 3 Enter the handset number you wish to send the handset phonebook entry to.
 - When an entry has been copied, “Completed” is displayed.
 - To continue copying another entry:
[▲]/[▼]: “Yes” → [▶] → Find the desired handset phonebook entry. → [▶]
- 4 []

Copying all entries

- 1 [] → [/OK]
- 2 [▲]/[▼]: “Copy All” → [▶]
- 3 Enter the handset number you wish to send the handset phonebook entry to.
 - When all entries have been copied, “Completed” is displayed.
- 4 []

Character entry

The dial keys are used to enter characters and numbers. Each dial key has multiple characters assigned to it. The available character entry modes are Alphabet (ABC), Numeric (0-9), Greek (ΑΒΓ), Extended 1 (ΑΑΑ), Extended 2 (ΣΣΣ), and Cyrillic (ΑΒΒ). When in these entry modes except Numeric, you can select which character is entered by pressing a dial key repeatedly.

- Press [◀] or [▶] to move the cursor.
- Press dial keys to enter characters and numbers.
- Press [C/✖] to erase the character or number highlighted by the cursor. Press and hold [C/✖] to erase all characters or numbers.
- Press [✱] to switch between uppercase and lowercase.
- To enter another character located on the same dial key, press [▶] to move the cursor to the next space, then press the appropriate dial key.

Character entry modes

Several character entry modes can be used when entering text. The characters that can be entered depend on the entry mode.

Characters available in each character entry mode

When the unit displays the character entry screen:

[□] → [▲]/[▼]: Select a character entry mode. → [▶]

A busy tone is heard when  is pressed.	<ul style="list-style-type: none">● The handset is too far from the base unit. Move closer and try again.● Another handset is in use or the answering system is being used. Wait and try again later.
Static is heard, sound cuts in and out. Interference from other electrical units.	<ul style="list-style-type: none">● Place the handset and the base unit away from other electrical appliances.● Move closer to the base unit.● Your unit is connected to a telephone line with ADSL service (page 40).
Noise is heard during a call.	<ul style="list-style-type: none">● You are using the handset or base unit in an area with high electrical interference. Place the handset and base unit away from interference sources, such as antennas and mobile phones.
The handset/base unit stops working while being used.	<ul style="list-style-type: none">● Disconnect the base unit AC adaptor and turn off the handset. Connect the base unit AC adaptor, turn on the handset and try again.
The handset beeps intermittently and/or  flashes.	<ul style="list-style-type: none">● Fully charge the batteries (page 12).

Problem	Cause & solution
I fully charged the batteries, but  still flashes.	<ul style="list-style-type: none"> ● Clean the charge contacts and charge again (page 12). ● It is time to replace the batteries (page 11).
I fully charged the batteries, but the operating time seems to be short.	<ul style="list-style-type: none"> ● Wipe the battery ends (\oplus, \ominus) and the unit contacts with a dry cloth. Change the batteries for 7 hours before reuse.
Caller information is not displayed.	<ul style="list-style-type: none"> ● You need to subscribe to Caller ID service. Consult your service provider/telephone company for details. ● Caller has withheld information. ● Your unit is connected to a telephone line with ADSL service (page 40).
I cannot register a handset to the base unit.	<ul style="list-style-type: none"> ● The maximum number of handsets (6) are already registered to the base unit. Cancel unused handset registrations from the base unit (page 31). ● You entered the wrong PIN. If you forget your PIN, consult your nearest Panasonic service centre. ● Place the handset and the base unit away from other electrical appliances.
I do not know how to erase the missed call number (for example, "3 Calls") from the display.	<ul style="list-style-type: none"> ● There are unviewed missed calls remaining. View them using the following method. <ol style="list-style-type: none"> 1 /OK 2 /[v]: "Caller List" →  3 Press  to search from the most recent call, or press  to search from the oldest call.

Answering system

Problem	Cause & solution
The unit does not record new messages.	<ul style="list-style-type: none"> ● The answering system is turned off. Turn it on (page 25). ● The recording time is set to "Greeting Only". Select "1 Minute" or "3 Minutes" (page 30). ● If you subscribe to the voice mail service, messages are recorded by your service provider/telephone company not your telephone. Change the unit's "Number of Rings" setting or consult your service provider/telephone company (page 29).

Useful Information

Problem	Cause & solution
I cannot operate the answering system with the handset.	<ul style="list-style-type: none">● The base unit or another handset is being used. Wait for the other user to finish.● A caller is leaving a message. Wait for the caller to finish.● The handset is too far from the base unit. Move closer.
When I try to operate the answering system with the base unit, the answer on indicator on the base unit flashes for a few seconds and I cannot operate the answering system.	<ul style="list-style-type: none">● Another handset is being used. Wait for the other user to finish.● A caller is leaving a message. Wait for the caller to finish.
I cannot operate the answering system remotely.	<ul style="list-style-type: none">● You are entering the wrong remote access code. If you forget the remote access code, store a new remote access code (page 27).● Press each key firmly.● The answering system is turned off. Turn it on (page 28).● You are using a rotary/pulse telephone. Try again using a touch-tone phone.
While recording a greeting message or listening to messages, the unit rings and recording stops.	<ul style="list-style-type: none">● A call is being received. Answer the call and try again later.

For ADSL users

We recommend connecting a filter (contact your ADSL service provider) to the telephone line between the base unit and the telephone line socket.

Specifications

- **Standard:**
GAP (Generic Access Profile)
- **Number of channels:**
120 Duplex Channels
- **Frequency range:**
1.88 GHz to 1.90 GHz
- **Duplex procedure:**
TDMA (Time Division Multiple Access)
- **Channel spacing:**
1,728 kHz
- **Bit rate:**
1,152 kbit/s
- **Modulation:**
GFSK (Gaussian Frequency Shift Keying)
- **RF transmission power:**
Approx. 250 mW
- **Voice coding:**
ADPCM 32 kbit/s
- **Power source:**
220–240 V, 50/60 Hz
- **Power consumption**
Base unit:
Standby: Approx. 1.9 W
Maximum: Approx. 5.3 W
Charger*¹:
Standby: Approx. 0.9 W
Maximum: Approx. 4.5 W
- **Operating conditions:**
5 °C–40 °C, 20 %–80 % relative air humidity (dry)
- **Dimensions:**
Base unit: Approx. 54 mm × 122 mm × 137 mm
Handset: Approx. 155 mm × 48 mm × 32 mm
Charger*¹: Approx. 53 mm × 81 mm × 91 mm
- **Mass (weight):**
Base unit: Approx. 210 g

Handset: Approx. 130 g

Charger*¹: Approx. 60 g

*¹ KX-TG1857
